

YOUR PRIVACY

For proper treatment it is necessary that I, Christine Wagner, as your treating therapist, draw up a file. This is also a legal obligation imposed by the WGBO (Law on the Medical Treatment Agreement). Your file contains information about your health status and about the treatments performed.

The file also contains information that is necessary for your treatment and that I have requested, after your explicit permission, from another care provider, for example from a physician, your coach or other therapist.

I do my best to ensure your privacy. This means, among other things:

- Handle your personal and medical details with care;
- Ensure that unauthorized persons do not have access to your data

As your treating therapist, I have sole access to the data in your file.

You are aware that I do not have extensive medical knowledge and skills and I am not a medical professional. That is why I have no medical obligation to keep secrecy and cannot be called to account by the medical disciplinary board. Nevertheless, I am committed, as far as that is within my possibilities to adhere to the confidentiality obligations concerning matters of your personal privacy as my client.

The data from your file can also be used for the following purposes:

- To inform other healthcare providers, for example when the therapy has been completed or when referring to another practitioner. This only happens with your explicit permission.
- For use for observation, during my absence.
- Or for anonymized use during peer evaluation/supervision.
- A small part of the data from your file is used for financial administration, so that I or my accountant can prepare an invoice.

If for any other reason I want to make use of your data, I will first inform you and explicitly request your permission.

This data in the client file is retained for 15 years as required by the law on the treatment agreement.

PRIVACY ON THE INVOICE

The invoice that you receive contains the information requested by the health care insurer, so that you can possibly declare it to your health care insurer.

- Your name, address and place of residence and your date of birth
- the date of treatment and a short description of the treatment, such as "treatment of natural medicine or "psychosocial consultation "
- the costs of the consultation

I will also not pass on / sell your e-mail address to third parties and only use it with your explicit permission for mailings / newsletters from my clinic.

Christine Wagner, Bloemendaal, May 2018
